For this year, the Foundation aims to hire an executive manager and establish committees to be flexible for the needs of the library.

   c. Library Director’s Report Including Administration and Management
      Dorr began with a Covid-19 update. In light of the new variant, Dorr and Library leadership are revisiting plans to be flexible and open for the community. Dorr commented that social media is the most efficient way to communicate with the public and that operating safely for staff and the community remains a priority.

      Dorr invited Lewis to present information on the Library’s upcoming strategic planning process. Lewis will be the lead project manager for the effort for the Library. Lewis shared the selection of BERK Consulting, Inc. to support this effort and touched on their role in the strategic planning process. Lewis also spoke to the project schedule and roles. Representatives from BERK Consulting, Inc. will attend the Board’s February meeting.

      Dorr highlighted a recent effort undertaken by the city to conduct an independent analysis of facilities management, aimed at identifying potential opportunities to make Library and Public Works facilities more efficient for the community. The Board would need to approve budgetary changes, so Dorr asked the Board how they would like information presented. Trustees stated that wholistic narratives on budget changes in addition to frequent financial recaps would be helpful for them to consider any proposed changes as well as to track progress in major activities.

6. Educational Item – Home-Based Services
   Counsil and Bryner gave a presentation on Home-Based services to the Board. Home-Based services are monthly services -- such as library card registration, delivery of print materials, activity kits, and pop-up libraries – to Boise’s senior and other home-based residents free of charge.
